MORE WAYS TO PLAY

Feel free to discover our all-new car infotainment line-up, with even more ways to enjoy life on the road and more possibilities to integrate your smartphone. Now several Pioneer systems feature Apple CarPlay – the smarter, safer and more fun way to use your iPhone in the car. You'll also discover lots of new easy-to-use apps that give you access to navigation, traffic information, music, events and much more. It's time to play!

Apple CarPlay

FOR THE VEHICLE YOU ALREADY OWN

CONNECTED

Now you can experience Apple CarPlay, the best way to use your iPhone in a vehicle. You can make calls, get directions, listen to your iTunes library and use Apple CarPlay compatible apps. With Pioneer and Apple CarPlay, you have access to your iPhone's best features in the car you already own.

ENHANCED

Pioneer enhances your Apple CarPlay experience. Siri uses the included external microphone and your car's speakers for a powerfully integrated experience. Benefit from fast and responsive control with the advanced touch panel LCD screen. And enjoy customised listening using the built-in equaliser, subwoofer controls and more.

EASY

Just plug in your iPhone and Apple CarPlay automatically launches.*

Currently available in France, Germany, Italy, Spain, Switzerland and the UK.

CAR RECEIVER

TOTAL APP CONTROL

The SPH-DA120 puts your smartphone front and centre, allowing you to display and control your apps right on the large capacitive touchscreen. With Apple CarPlay on board, you can use your iPhone in the car safely and easily. Listen to music, make hands-free calls and access messages with a word to Siri or by touch. Quick, intuitive and easy to use, this unit keeps you totally connected via Bluetooth, AppRadio Mode, Apple CarPlay or MirrorLink. It's the perfect smartphone extension!

Works with Apple CarPlay

Supports Siri Eyes Free and Google Voice.

Works with Apple CarPlay.*

Parrot Bluetooth AppRadio MODE MirrorLink CAPACITIVE SCREEN Dual USB HDMI

For further details on AppRadio Mode, go to www.pioneer.co.uk/appradiomode.

AppRadio MODE

With Pioneer's AppRadio Mode, you can control compatible apps – from an iPhone 6 Plus/6/5s/5c/5/4s/4 or compatible Android phone – directly on the large touchscreen. Simply connect a compatible iPhone or Android phone via AppRadio Mode, to receive various third-party services – such as INRIX, Stitcher, Yelp – directly on the touchscreen. Get navigation and live traffic information, listen to your favourite music, check the weather, find nearby events and more, all while charging your smartphone.

AppRadioLIVE

For easier access to all your apps and digital media, Pioneer introduces the AppRadioLIVE app.
It offers a clear and neatly organised all-in-one interactive interface that will make your on-the-road life a lot easier. Just select what you need – maps, media, events or calendar – and you get a full-screen view of the related content.

The AppRadioLIVE app is available for iPhone 6 Plus/6/5s/5c/5/4s/4 and works with all AppRadio Mode compatible products.

NAVIGATION AV SYSTEMS

NO-COMPROMISE NAVIGATION

Pioneer NavGate stands for the most powerful, extensive and accurate navigation around. Our units offer compatibility with Apple CarPlay for intuitive integration of your iPhone in the car. Using the AppRadioLIVE app on your smartphone, you get maps, traffic updates, music and more on the large touchscreen. With Bluetooth, MirrorLink and HDMI, you stay fully connected. Simple to use and easy to install, these systems give you full-on entertainment wherever you drive.

THE CLEAR CHOICE

Enjoy the convenience and superb audio of digital radio in your car. The Pioneer AVIC-F60DAB and AVIC-F960DAB with a built-in DAB+ tuner give you crystal-clear radio from your favourite FM stations and a wide range of digital radio stations. What's more, you're in control of how you listen: Pioneer's unique Time Shift functionality allows you to pause and rewind live digital radio. The choice has never been clearer.

- ✔ **More choice:** Get access to a wider variety of stations – the FM stations you know plus digital-only stations. So you can enjoy more of the music you love.
- ✔ **Easy to tune:** Find the station you want by name, not by number. Plus, track and artist listings are displayed on-screen.
- ✔ **Don't miss anything:** Pause and rewind live digital radio with the Time Shift function.
- ✔ **Crystal-clear sound:** Enjoy your favourite radio stations in CD-like audio quality – without signal noise.
- ✔ **Interference-free reception:** There's no interference, even when station frequencies overlap.
- ✔ **Faster station switching:** Several channels can be received per network at the same time, so switching between stations is instant.

CD RECEIVERS

UNLIMITED MUSIC TO GO

Pioneer CD receivers play outstanding quality audio from almost any source, with even more ways to enjoy your iPhone, iPod or smartphone on the road – including Android digital media via an MTP connection. Bluetooth models add convenient wireless browsing and simultaneous connection of two smartphones, so you can easily receive calls from either phone. MIXTRAX keeps the beat going and presents illumination effects that match your beat. It's time to bring your car entertainment to life...

Colour customisation

Customise your car stereo display to match your mood and/or your car illumination. With 210,000 colours to choose from, you can change the multi-colour RGB display and the key illumination separately to create your own personal combination.

MIXTRAX

Discover MIXTRAX – this exclusive Pioneer technology mixes your favourite tracks in an exciting and dynamic DJ-style playlist, to create the perfect soundtrack for your drive. Some models feature built-in MIXTRAX. On other models you can use the MIXTRAX app in AppRadio Mode, or download the software to your PC.

Bluetooth connectivity

Many new Pioneer devices within the DEH/FH/MVH range allow you to keep two Bluetooth phones connected simultaneously. So no more switching between your business and private phone is necessary. It's also possible to browse and stream music directly from an iPhone or Android phone. Media App Control even allows you to listen directly to music apps on your smartphone over your car stereo system.

Last, but not least, with Siri Eyes Free you can access many iPhone functions using voice commands.

Check your phone's compatibility at **www.pioneer.co.uk/connectivity**

DIGITAL MEDIA RECEIVERS

MOBILE MEDIA POWER PLAYERS

Take your favourite tracks for a drive. Just plug in your iPod, iPhone, Android or other portable device via USB, and these models are ready to play. Using Media App Control, you can even access your favourite music apps and play tunes over your system. Whether you choose high-quality Bluetooth wireless streaming, crystal-clear DAB+ or automatic MIXTRAX club soundtracks, the fun is about to begin!

AMPLIFIER & SUBWOOFERS

COMPACT POWER PERFORMANCE

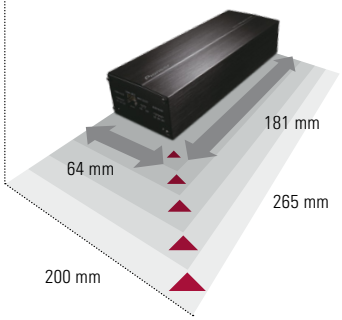
Small on size and big on power, these amp and subwoofers are perfect to expand your system. The easy to install 4-channel digital amplifier is designed to give your factory-fitted system a boost. Our new subwoofers give you richer and clearer bass thanks to the fully enclosed steel basket and highly rigid 3D-shaped cone design, while an amplified subwoofer with high-tech HVT technology adds bass to your system in a space-saving design.

GM-D1004

Compact 4-channel Class-D Amplifier.
4 x 100 W (4 Ω/2 Ω) MAX.
4 x 45 W (4 Ω/2 Ω) continuous output power.

Limited footprint

The GM-D1004 is the perfect solution for systems in which extra power is needed, but where space is limited. Despite its very restricted dimensions, this Class-D amplifier delivers no less than 400 W of power.



TS-W311D4/S4

1400 W MAX.

30 cm 4 Ω Dual (D4) or Single (S4) Voice Coil Subwoofer.
400 W nominal input power.

TS-W261D4/S4

1200 W MAX.

25 cm 4 Ω Dual (D4) or Single (S4) Voice Coil Subwoofer.
350 W nominal input power.

TS-W311

1000 W MAX.

30 cm Multi-purpose Subwoofer.
300 W nominal input power.
For free-air or enclosure-type use.

TS-WH500A

150 W MAX.

18 cm x 10 cm Dual Cone Sealed Amplified Subwoofer.
Space-saving design: only 6 cm high.

Horizontal-Vertical Transforming (HVT) technology

The new TS-WH500A amplified subwoofer incorporates groundbreaking HVT technology from Pioneer. This **world-first** design transforms the speaker's voice coil movement from horizontal to vertical, by using linkage mechanisms in the speaker. The thickness of the speaker, as well as unwanted vibration, are drastically reduced. The result is higher sound quality and richer, clearer bass than ever before by a shallow speaker.

ENHANCED AUDIO EXCELLENCE

Drive your sound system with style. TS-G speakers offer that famous Pioneer high-quality sound, and have a dynamic new look as well. These models will improve your audio experience as they deliver higher sensitivity and more power. They're designed to enhance your factory fitted stereo and are very easy to install, thanks to their design and multiple fitment options available. Be ready for an instant audio road trip.

TS-G133CI
250 W MAX.

13 cm 2-way Component Speaker System.
40 W nominal input power.
